READ ALL ABOUT IT!

My name is Gavyn Toepp, and I'm excited to give you all a little article about my life here!

In 2008, I was born in New Hartford, New York, and spent the first thirteen years of my life moving around the country only to end up right in my home of Central New York.

Fast forward to 2024 and I was enrolled into Mohawk Valley Community College (MVCC) at just 16 years old. While I take pride in everything community college has offered, nothing could have prepared me for everything that would come from my induction into the Lambda Beta Chapter of Phi Theta Kappa.

Shortly after my induction I had the privilege to attend PTK's 2025 catalyst, which filled me with such a level of inspiration, I knew I had to walk the same stage and inspire other people in the same way!

Since then, I've served as Vice President of Leadership in my chapter, Vice President of Northern District of the New York Region, and now I've set my sights for the top!

MISSION STATEMENT

My mission as an International Officer is to not just speak in front of as many PTK members as I can, but to promote engagement among each and every chapter I can!

HALLMARKS

LEADING AND CONNECTING!

LEADERSHIP

NEW YORK REGION VICE PRESIDENT

As the New York Region's VP of Northern District, I've had the honor of not just working with an amazing team, but bolstering my public speaking skills, learning how to work together even at a distance, and representing my own home in New York State!

LAMBDA BETA'S VICE PRESIDENT OF LEADERSHIP

Serving as my chapter's VP of Leadership, I've gotten to meet a lot of people through our chapter, and do my best to help their skills in leadership too! From keeping spirits high with some certainly creative icebreakers, to presenting on how to make public speaking a little easier, being a chapter officer has helped me grow as a leader and member in PTK!

FELLOWSHIP

Fellowship is all about the connections you make, and I've gotten to make plenty during my time at my chapter! Over the course of this past year, I got to make new friends at Catalyst 2025, end up at the same spot for pizza with my fellow officers just about every week, and meet plenty of students on my campus all through the fellowship I experienced not just as an officer, but a member!

Even if it's at an international convention or just at a singular chapter, I know that anywhere with Phi Theta Kappans is a place I know I'll get to meet, connect, and learn with the brightest minds around!

HALLMARKS

SERVING UP AND BUILDING UP!

SERVICE

Service is a truly amazing thing to see happen throughout PTK, and I've been extremely lucky to contribute all the way from as a member, to regional officer! Some highlights of the service hallmark that I've gotten to take part in were my chapter's annual Spring Intergenerational Clean-Up, the New York Region's 'Serve it up' and 'Serving on the Clock' initiatives, and the Lambda Beta Chapter's Destress week!

Whether it was the region racking up hours of service, getting donation's to my college's food pantry, or helping student's get a little less stressed out before finals, I'm proud to have gotten to put in work towards Phi Theta Kappa's initiative dedicated to Service!

SCHOLARSHIP

Scholarship is about more than just making college cheaper, it's about better preparing for the experience as a whole with every experience as a whole! These are the resources I've added to my collection:

A fully inclusive program to put me through college at sixteen and get an Associates Degree?

Secured!

Advocacy, Competitive, Employment, Healthcare, Research, and Transfer Edges?

Completed!
