Texas Region
Alpha Omicron Chapter

Tyler Junior College: Tyler, Texas

RONDA KNIGHT

Returning to college is the best decision I could've made. I experienced new opportunities to grow, learn, and lead within a community I love. When I graduate I'll happily start my life as a nurse, with the intention of returning to my alma mater, Tyler Junior College, to teach the next generation of healthcare professionals.

My heart is full of my children and Phi Theta Kappa family that support me daily. As they've inspired me to run for International Office, I hope to inspire all of you to lead with care every day.

Prescribed Care.

Proven Leadership.

Prescribed Care. Proven Leadership.

Your leadership is the prescription for student success, unity, and excellence.

Patient's Name: Phi Theta Kappa Members Worldwide

Prescription: Ronda Knight, Future Nurse Date: 2026-2027

Dosage

I have completed the Transfer, Competitive, Employment, Healthcare, and Research Edge programs.

During my term as a Texas Regional Officer, I have helped plan and coordinate events such as the 2025 Texas Honors Institute, 2025 Texas Leadership Conference, and 2026 Texas Regional Convention.

While juggling this role, being a mom, and completing my clinicals, I also helped my home chapter, Alpha Omicron, set up and run our College Project called the “TJC Cares Wellness Fair” where students were connected to campus and community resources.

Directions for Use

I love to spend time outdoors to recharge and take on the day. Listening to music and reading also occupy my free time. My biggest focus is growth, for myself, and for others.

Warnings

- ⚠ May cause increased motivation
- ⚠ Side effects include stronger chapters, empowered members, and meaningful service

Refills

♻️ Unlimited dedication to Phi Theta Kappa values

♻️ Ongoing service beyond election

Ronda Knight
