Leadership

Leadership is a journey, not a single destination. My path in Phi Theta Kappa has been shaped by listening, collaboration, and a commitment to moving our organization forward together. Each role I've taken on represents a meaningful mile marker—guided by PTK's values and driven by the belief that every member deserves support, opportunity, and a clear sense of direction. The experiences that follow highlight how I have helped navigate this journey, always with the goal of ensuring no chapter, region, or student is left behind.
