My Goals:
Inspire positive change in the world
Improve the Education System
  -Research team for teachers
Educate healthier environmental needs
  -Renewable resources
  -Healthier habits
  -Freshwater scarcity
  -Human impact on Climate Change
Network with as many people as I can
Strive for unlimited knowledge
My Mission: It is my passion to help others. College has taught me the value behind discovering one’s skills and Phi Theta Kappa has shown me the inspiration it spreads when we share our passion with those around us. I want to use my passion to help others and to inspire them to be the positive change in our world.

Motivation: my three children EvaLynn Nykole, Christopher James, and Xadyn Markel

Support: my husband Chris, my parents Anjie and James Peart, my advisor Dr. Adriana Perez, my mentor Professor Rob Rohrbaugh, EPCC President Dr. Williams Serrata, Omega Gamma chapter family, my four siblings: Kelly, Michael, James and Ciara, and everyone else who believes in me. Thank you
